

## spiralwalk

7 years passed in the "Garage" –  
the big split had to come  
in order to introduce a new era  
in November 2003  
after a two-year long pause.

Acoustic guitar and singing are only just the beginning...

Now, we are ready, READY to share our music  
with the public.

We have waited long enough  
and now the time has come  
to re-introduce profound thoughts  
and quality in to our present time of ephemerality.

What we do here is something special  
and shall remain special – we will have the strength  
to develop our own style of music  
and give way to our emotions –  
emotions that with the help of our instruments  
shall be converted into beautiful songs  
to fill our hearts with joy.

The music?  
...Rock...

It is our dream to give people  
the chance to experience our music  
and to delight them  
with our Live Shows - to give them the chance  
to decide for themselves whether or not our music  
touches their heart.

We say to the audience of our live shows:  
let yourselves go and experience with us  
a beautiful, harmonic and inspiring evening.  
However, in order to make our dreams come true  
we need and seek the right partners  
who will support and guide us on our journey.

We do not just talk – we live by our ideals  
and have no doubt that for us this is  
the right way forward.

We have found each other  
and are prepared to let it grow.....

BREAKFAST AT NINE  
FIVE
